Technologies: Xcode, Git/GitHub, Figma, Adobe Photoshop, Postman, SQL
Certifications: Udemy's The Complete JavaScript Course, Udemy's React Course, Portnov's Quality Assurance
Languages: Ukrainian, Russian, English

Projects

SocialBites App | *PERN Stack,* Github   August 2023
- SocialBites allows users to interact with their favorite eateries through a social media-like platform where restaurant owners can post events/promotions occurring and users can post reviews
- Designed and prototyped the wireframes using Figma, ensuring a sleek and modern design that catered to user needs and preferences
- Developed the front-end using React's loaders and actions, to build components: Restaurant Settings, User Settings, About, FAQ, Contact Us and Search
- Implemented responsive web design techniques, allowing the application to adapt seamlessly to various screen sizes, enhancing accessibility for all users
- Worked closely with the Back-End Developer to establish efficient communication between the front-end and back-end systems through API endpoints, enabling CRUD operations to add, edit, delete restaurant and user settings

To Do App | *React, Tailwind, Vite*   July 2023
- A classic application to help users manage their tasks including adding, deleting, and marking tasks as completed
- Achieved 100 score for Lighthouse Best Practices and 97 score for Lighthouse Accessibility

Weather App | *HTML, CSS, JavaScript, Php, Redis*   May 2022
- Built a single-page web application, which enables users to check the weather in their city
- Increased speed of application by utilizing Redis cache, improved User Interface for proper rendering on mobile devices, and increased functionality by connecting to open source API

Professional Experience

Peter Pen Tours of Central Park   **New York, NY**
Tour Guide   Apr 2017 – Present
- Brought company to Top 10 in TripAdvisor by achieving 5-star reviews by executing premium customer service, accommodating tourists with positive energy, organization, extensive knowledge, and flexibility for 1,000+ guests in English, Spanish, and Italian which led to a 50% increase in bookings
- Enhanced company online presence by handling promotion of the business through online channels such as Facebook, Twitter, Search Engine Optimization, and TripAdvisor which lead to 20x fold clicks on website
